

PROJECT COORDINATOR

The Pensacola and Perdido Bays Estuary Program's (PPBEP) mission is to serve as a trusted source for residents, businesses, industry, and the community on issues relating to preserving, restoring, improving and maintaining the natural habitat and ecosystem of the bays, estuaries and watersheds of Pensacola and Perdido Bays.

The Project Coordinator will oversee all aspects of project coordination for assigned environmental restoration projects, including ensuring project goals and objectives are successfully implemented, managing consultants and contractors, facilitating design review and evaluation with relevant parties, preparation of technical documents, engaging with regulatory agencies and ensuring regulatory compliance, project reporting, implementation oversight, and engaging with the public. The Project Coordinator will be responsible for coordinating the design and permitting of the Carpenter Creek Restoration Project. Duties include managing consultants, overseeing project design and permitting, regulatory coordination, coordinating with partners, real estate acquisition, and project reporting. The Project Coordinator will also be responsible for coordinating design and implementation of the Pensacola Bay Oyster Restoration Initiative. Duties include close coordination with staff and partners to realize design goals, managing consultants, regulatory coordination, and project reporting, among other duties.

The Project Coordinator should possess project management skills and have prior project management experience. The Project Coordinator should possess knowledge of coastal restoration principles, including design and implementation of large-scale oyster restoration, stream restoration, living shorelines, and/or water quality improvements.

The Project Coordinator works under the supervision of the Executive Director and collaborates with all program staff. This is a full-time position that will have regular work hours from Monday-Friday with a potential for work outside of those hours, as needed. The position is based in Pensacola with frequent travel throughout the area watersheds.

This is a grant-funded position funded through August 2027. The position has the potential to be extended contingent on funding.

EXAMPLE OF DUTIES

Manages natural resource and environmental improvement projects in assigned area of responsibility; coordinates the activities of consultants, contractors, and/or other applicable parties; provides guidance related to project creation, construction, scheduling, manpower, and/or other related issues

Ensures project goals, objectives, and vision are successfully implemented
